#### Notes on AGGREGATE CATCH/EFFORT DATA

6	The catch data are in units of numbers of fish only, rather than both numbers of fish and kilograms.
15	National legislation requires that time/area strata comprising data from less than three vessels can not be included.
16	The 5°x5°/month Longline catch and effort data are not stratified by "Hooks between Floats"
21	Aggregate data were not provided by the flag state, or the aggregate data provided by the flag state were not appropriate for use in stock assessments. However, aggregate data have been generated from annual catch estimates and/or operational data made available by Coastal States (Pacific-Island Countries/Territories) to the WCPFC

#### Notes on SIZE DATA

7	Includes weight data in units of POUNDS (gilled-and-gutted weight)
